4.73 Casualties to leaders are determined prior to resolving Shock Combat. If either or both players have a leader stacked with one of the units involved in the Shock Combat, the player rolls the die for each such leader. If the die roll is 1-9, nothing happens; if it is a 0, the leader has suffered a casualty. The affected player must now determine the effect by rolling the die again and consulting the Leader Casualty Table. See 8.19 for Missile Fire casualties. Eliminated leaders are immediately removed from play.
