4.74 All leaders, other than the OC, may be replaced when eliminated. This is done by having the OC issue an IO to replace a fallen subordinate with a Replacement leader. Eliminated Tribunes and Praefects are simply placed back on the map. The OC does not have to be within range of any unit; simply place the Replacement leader (or returning Tribune/Praefect) in any hex containing a unit the leader can command. The Replacement leader is Finished for that Game Turn. The number of Replacement leaders provided is a design-intent play limitation. If there are no Replacement leaders available, a leader may not be replaced. This, again, does not apply to Tribunes and Praefects.
