6.41 Phalanxes, when needed, could move as rapidly as their seemingly lighter counterparts, although this added rapidity often created cohesion problems. Therefore, they have two MAs: 4/5. The basic MA is 4; however, a player may increase his Phalanx MA to 5 in any move order. If he does so and uses that 5th MP, the first time the unit moves in a Game Turn, the unit must undergo a TQ check (10.11) at the end of the increased movement. If the DR is higher than the unit's TQ, the unit incurs 1 Cohesion Hit. If a "Moved" Phalanx uses its 5 MA in any subsequent move, it incurs 2 Cohesion Hits (there is no TQ check) or 1 Cohesion Hit if it uses its 4 MA.
