- The Line may withdraw 1 hex the instant any enemy *infantry* would normally trigger OW, if the units in the the line (with PW) have the capability to do so (6.51). When PW is triggered, all units in the Line must withdraw together (as in 6.57), and they all must withdraw 1 hex. All effects of OW apply (6.52, 6.55, etc.). PW may be undertaken any number of times for the remainder of the Game Turn. Once a Line has used PW, its leader is Finished ... even if he has not yet been activated!
