6.66 If two units are stacked in the same hex, the stacking order (i.e., who is on top) may be changed/switched only by the change stacking Individual Order (5.22 #6); it may not be part of a move order or a Line Command. If the player wants to unstack the units, only the *top* unit may move in that Orders Phase (9.66 is an exception). A unit moving into a hex to stack is always placed on the bottom. Such a move to a hex adjacent to an enemy unit
