8.19 Leader Casualties: If there is a leader in the hex fired at, and the *unmodified* Missile Fire DR is 0, there is a possibility that the leader has been hit. Roll the die again. If the die roll is 1-9, nothing has happened; if the DR is 0, the leader has suffered a "casualty". See 4.73 for the procedure. Players may, if they wish, fire at a hex in missile range in which there is only a leader counter.
