DESIGN NOTE: It would be easier to resolve each separate combat as one "piece". However, to do so creates a "blitz-krieg" type of effect, wherein the attacker gets to choose which attacks he wants to do first so that he can achieve "break-throughs". Despite its simplicity, this would be so far from reality as to render the system—and the game—inaccurate; however, isolated shocks can certainly be resolved as a piece, if doing so would not affect other attacks. The method you choose should keep this intent in mind.
