

*EXAMPLE: [Beneventum] The Crete Archer A may fire at Roman units **Y** and **Z** (dashed arrows). The range is 3 and 4 respectively.*

PLAY NOTE: The Shock system relies on the interaction of the units' weapons, armor protection, size, angle of attack, and troop quality (TQ), to produce a single result. While no factor is unimportant, the rating to pay closest attention to is the TQ, for that rating determines the ability of a unit to withstand the rigors of toe-to-toe ancient warfare.

PROCEDURE

Shock Combat takes place in the Shock Combat Segment. Shock is part of a leader's Orders Phase, and all Shock precipitated by that leader is resolved before the next leader may be activated or Momentum attempted.

IMPORTANT: Each Shock Combat is conducted as a series of steps performed in order, for all units participating in Shock Combat. Thus 8.43 is completed for all involved units, then 8.44 for all involved units, etc.
